

# OLANREWAJU SAMUEL FOLARANMI

AI Engineer · Full-Stack Developer · Golang & Python

+234-81-6117-4630 · sammyola246@gmail.com · [devfolo.vercel.app](#) · [github.com/fohlarbee](#)

---

## SUMMARY

Full-Stack Engineer with 4.5+ years delivering production web and mobile applications, now specialising in AI Engineering. Currently building LLM-powered products, autonomous AI agents, and RAG systems using LangChain, LangGraph, Python, and Golang. Strong background in fintech, clean architecture, and cloud-ready systems — applying that engineering depth to AI-native product development.

---

## TECHNICAL SKILLS

**AI / ML:** LangChain, LangGraph, CrewAI, RAG Systems, Vector Databases (Pinecone, Supabase pgvector), OpenAI API, Gemini API, AI Agents, MCP, Prompt Engineering

**Languages:** Python, JavaScript, TypeScript, Golang

**Backend:** Node.js, NestJS, FastAPI, REST APIs, Microservices, System Design

**Frontend:** React, Next.js, React Native

**Databases:** PostgreSQL, MySQL, SQLite, MongoDB, Supabase

**DevOps & Cloud:** Docker, AWS, CI/CD, Railway, Render

---

## WORK EXPERIENCE

**Golang Developer** · Nawo LTD

Jan 2024 – Present

- Built scalable Golang backend using clean architecture — covering auth, party sessions, QR flows, wallet, and feed ranking
- Set up Dockerized environments and CI/CD pipelines, enabling consistent production releases

**Full-Stack Engineer** · Paybancx LTD

Aug 2021 – Nov 2025

*Paybancx is a Nigerian mobile banking app — wallet management, bill payments, P2P transfers, and AURA-X AI assistant.*

- Shipped production fintech features for payments, onboarding, and financial data flows across web and Android
- Led end-to-end Android release pipeline on Google Play Store — QA, signing, and staged rollouts

**Frontend Engineer** · Nawo LTD

Mar 2022 – Present

*Nawo brings Nigeria's iconic money-spraying culture into the digital age — spray money at parties without stress, no mint wahala, no EFCC drama.*

- Developed and shipped React Native mobile features for iOS and Android
  - Led production releases to Apple App Store and Google Play Store across multiple versions
- 

## EDUCATION

**B.Sc. Computer Science** · University of Jos, Plateau State

Nov 2019 – Aug 2025

*Relevant coursework: Software Architecture, Project Management, Distributed Systems*

**Blockchain Development Program** · Blockfuse Labs, Jos

Dec 2025 – Present

*Specialisation in Decentralised Applications and Smart Contracts*

---

## CERTIFICATIONS

- Project Management Professional (PMP)
- Certified Database Engineer — CS50, Cambridge
